

ALUCAT® Superiority

SAFETY

ALUCAT-catamaran is the durable and safe partner. Excellent driving character.

STABILITY

Super stable, withstands a heavy load on board. A good bow capacity. Excellent working facilities on board.

DECK AREA

Large, self-draining, flat and stepless open deck area. Easy to load and walk via a wide bowramp.

MULTIPURPOSE USE

Equipment by customer's need. Removable seatboxes. Mounting rails. For work and leisure. Easy to maintain.

ECONOMIC

Environment praises. Fuel consumption almost even with load. Hull with workboat standards. Large load capacity.

DRIVING CHARACTER

Turns firmly without drifting and stays horizontal. Small turning radius. Quiet cabin. Excellent planing character.

STOP AND GO

Stern does not fall down. Moves smoothly through waves. Small planing threshold. Light sternwave. Easy diving.

ASHORE

Goes easily ashore. Steplessly adjusted hydraulic bowramp. Shallow draught. Stays straight against the pier.

ALUCAT® W10

ALUCAT® W10

State of art handling, stable, safe and spacious multi-purpose boat with a catamaran hull for a demanding and accessible use.

ALUCAT® is **SAFE**

Stability, Area, Flexibility and Economy

ALUCAT®

better boats

Stability

Because of the catamaran design, ALUCAT® is very stable and withstands a large load on board. It stays firmly horizontal even on tight turns.

Moving around the flat deck area is easy and safe. The boat has a first-class manoeuvrability and it can be driven straight ashore due to shallow draught.

The loading and diving are easy via a wide bow ramp.

Area

Usable area on the flat deck ca. 108 ft² (10m²). The boat is easily loaded via a hydraulically operated bow ramp. The flat deck enables the carriage of elements and the storage of equipment. The lockable seating boxes for equipment are set up by customer's need. The boats are equipped with the mounting rails and accessories desired by the customer. The self-draining deck is easy to keep clean.

Flexibility

The deck area is well-adapted to suit for the different needs.

ALUCAT® W10 is a perfect choice especially for accessible need and professional use. All the equipment over the wide deck area are tailored

with the customer's need. Fast and easy to load on a trailer.

The bow ramp is also available with remote control.

Economy

The catamaranboat has excellent planing character. This means cost-effective engine investment and thus, a lower fuel consumption.

The fuel consumption increases only slightly with a heavy load on board.

ALUCAT®-boats are made from durable and recyclable materials.

Technical information

Boat type	Catamaran
Material	Aluminum 5083
Deck commercial squares	~ 108 ft ² (10 m ²)
Length	20,01 ft (6,1 m)
Width	7,6 ft (2,30 m)
Bow ramp width	3 ft (0,9 m)
Weight	~ 1650 lb (750 kg)
Carrying capacity	~ 2250 lb (1000 kg)
Draught	~ 1.1 ft (0,35 m)
Tank	29 gal (110 L)
Number of persons	max 8
Recommended power	1 x 100-180 hp
Category	NMMA, CE / C (coastal waters and lakes)
