

ALUCAT® Catamarans SUPERIORITY

SAFETY

ALUCAT-catamaran =durable and safe multipurpose boat. Easy to load via a wide bow ramp. Compartmented hull.

STABILITY

Super stable, withstands a heavy load on board. Stays firmly even on tight turns. Excellent working facilities on board.

DECK AREA

Large, self-draining, flat and stepless open deck area. Easy to load via a wide bowramp. Space also for a crane.

MULTIPURPOSE USE

Deck equipment by customer's need. Removable seat-boxes. Extra equipment for hard work. Easy maintainability.

ECONOMIC

Environment praises. Smaller engines. Fuel consumption almost even with load. Also with single engine. Strong hull.

DRIVING CHARACTERISTICS

Turns firmly without drifting and stays horizontal. Small turning radius. Quiet cabin. Excellent planing character.

STOP AND GO

Stern does not fall down. Moves smoothly through waves. Small planing threshold. Light sternwave. Good visibility.

ASHORE

Goes easily ashore. Steplessly adjusted hydraulic bowramp. Shallow draught. Stays straight against the pier.

ALUCAT® W14

ALUCAT® W14

Top driving, stable, safe and spacious multi-purpose aluminum boat with a catamaran hull. Suitable also for demanding professional and official use.

ALUCAT® is SAFE

Stability, Area, Flexibility and Economy

ALUCAT®

better boats

Stability

Because of the catamaran design, boat is very stable and withstands a large load on board. It stays firmly horizontal even on tight turns. Moving around the flat deck area is easy and safe. The boat has a first-class manoeuvrability and it can be driven straight ashore. Loading, passing, diving and rescue is safe through the wide bow ramp. Excellent side and bow load capacity.

Area

Usable area on the flat deck ~ 14m². The boat is easily loaded via a hydraulically operated bow ramp. The flat deck enables easily the carriage of long elements, ATVs and skid-steer loaders. Lockable seatboxes for equipment and even deep seatboxes for diver's bottles. The boats are equipped with the mounting rails and accessories desired by the customer. The self-draining deck is easy to keep clean.

Flexibility

The deck area is well-adapted to suit for the different needs. ALUCAT® W14 is a perfect choice especially for professionals (taxiboats, construction work) and authorities (eg. oil recovery). Available in both 1- and 2-engine. The customer has a wide variety of options with different consoles, cabins and accessories. Fast and easy to load on a trailer.

Economy

The catamaran boat has excellent planing character. This means cost-effective engine investment and thus, a lower fuel consumption. The fuel consumption increases only slightly with a heavy load on board. ALUCAT®-boats are made from durable and recyclable materials.

Technical information

Boat type	Catamaran
Material	Aluminum 5083
Deck commercial squares	~ 14 m ²
Length	7,0 m
Width	2,45 m
Bow ramp width	1,44 m
Weight	~ 1250 kg
Carrying capacity	~ 1600 kg
Draught	~ 0,40 m
Tank	2 x 100 L
Number of persons	max 14
Recommended power	1 x 115-250 hp 2 x 80-115 hp
