

# ALUCAT® Catamarans SUPERIORITY

## SAFETY

ALUCAT-catamaran =durable and safe multipurpose boat.  
Easy to load via a wide bow ramp. Compartmented hull.

## STABILITY

Super stable, withstands a heavy load on board. Stays firmly even on tight turns. Excellent working facilities on board.

## DECK AREA

Large, self-draining, flat and stepless open deck area.  
Easy to load via a wide bowramp. Space also for a crane.

## MULTIPURPOSE USE

Deck equipment by customer's need. Removable seatboxes  
Extra equipment for hard work. Pull or push a flatboat too.

## ECONOMIC

Environment praises. Smaller engines. Fuel consumption  
almost even with load. Engines on external rack. Strong hull.

## DRIVING CHARACTERISTICS

Turns firmly without drifting and stays horizontal. Small  
turning radius. Quiet cabin. Excellent planing character.

## STOP AND GO

Stern does not fall down. Moves smoothly through waves.  
Small planing threshold. Light sternwave. Good visibility.

## ASHORE

Goes easily ashore. Steplessly adjusted hydraulic  
bowramp. Shallow draught. Landing reinforcements.

# ALUCAT® W25

ALUCAT® W25 is a stable, safe and durable  
multi-purpose aluminum boat with a catamaran  
hull. Thanks to its large deck area, it is perfectly  
suitable for professional and authority use.

ALUCAT® is **SAFE**

Stability, Area, Flexibility and Economy

"That you'd return home"

# ALUCAT®

**better boats**

# Stability

Because of the catamaran design, ALUCAT® is very stable and withstands a large load on board. It stays firmly horizontal even on tight turns. Moving around the flat deck area is easy and safe. The boat has a first-class manoeuvrability and it can be driven straight ashore.

# Area

Usable area on the flat deck ~25m<sup>2</sup>. The boat is easily loaded via a hydraulically operated bow ramp. The flat deck enables the carriage of long elements, ATVs, skid-steer loaders or even a car. A raised cabin provides an efficient use of the deck area.

# Flexibility

The deck area is well-adapted to suit for the different needs. ALUCAT® W25 is a perfect choice especially for professionals (taxiboats, construction work) and authorities (eg. oil recovery). The customer has a wide variety of options with different consoles, cabins and accessories. ALUCAT® W25 could be equipped with outboard motors or inboard engines.

# Economy

The catamaran boat has excellent planing character. This means cost-effective engine investment and thus, a lower fuel consumption. The fuel consumption increases only slightly with a heavy load on board. ALUCAT®-boats are made from durable and recyclable materials.

# Specifications

Boat type	Catamaran
Material	Aluminum 5083
Deck commercial squares	~ 25 m <sup>2</sup>
Length	10,4 m
Width	3,45 m
Bow ramp width	1,80 m
Weight	~ 2500 kg
Carrying capacity	~ 3300 kg
Draught	~ 0,50 m
Tank	2 x 300 L
Number of persons	max 24
Outboard motors	2 x 150-250 hp (recommended)
Inboard engines	2 x 200-270 hp (recommended)
CE- category	CE / C (coastal waters and lakes) (Work boat approval)
