

# ALUCAT® Catamarans SUPERIORITY

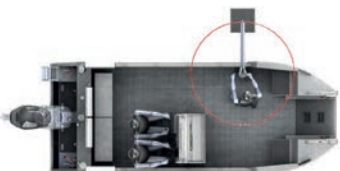

## SAFETY

ALUCAT-catamaran, durable and safe partner. Excellent driving character. Easy to load via a wide bow ramp.

## STABILITY

Super stable, withstands a heavy load on board. A good bow capacity. Excellent working facilities on board.

## DECK AREA

Large, self-draining, flat and stepless open deck area. Easy to load and walk via a wide bowramp.

## MULTIPURPOSE USE

Deck equipment by customer's need. Removable seatboxes. Mounting rails. For work and leisure. Easy to maintain.

## ECONOMIC

Environment praises. Fuel consumption almost even with load. Hull with workboat standards. Large load to the boat.

## DRIVING CHARACTERISTICS

Turns firmly without drifting and stays horizontal. Small turning radius. Quiet cabin. Excellent planing character.

## STOP AND GO

Stern does not fall down. Moves smoothly through waves. Small planing threshold. Light sternwave. Easy diving.

## ASHORE

Goes easily ashore. Steplessly adjusted hydraulic bowramp. Shallow draught. Stays straight against the pier.

# ALUCAT® W10

## ALUCAT® W10

# ALUCAT®

better boats

# Stability

Because of the catamaran design, boat is very stable and withstands a large load on board. It stays firmly horizontal even on tight turns. Moving around the flat deck area is easy and safe. The boat has a first-class manoeuvrability and it can be driven straight ashore. Loading, passing, diving and rescue is safe through the bow ramp. Excellent side and bow load capacity.

# Area

Usable area on the flat deck ~ 10m<sup>2</sup>. The flat deck enables easily the carriage of long elements, building materials and cottage supplies and equipments. Lockable seatboxes for equipment according to need. The boats are equipped with the mounting rails and accessories desired by the customer. The self-draining deck is easy to keep clean.

# Flexibility

The deck area is well-adapted to suit for the different needs. ALUCAT® W10 is a perfect choice for demanding use as rescue, transport and authorities (eg. oil recovery). The customer has a wide variety of options with cabins and accessories. Fast and easy to load on a trailer. Available in both 1- and 2-engine.

# Economy

The catamaran boat has excellent planing character. This means cost-effective engine investment and thus, a lower fuel consumption. The fuel consumption increases only slightly with a heavy load on board. ALUCAT®-boats are made from durable and recyclable materials.

# Technical information

Boat type	Catamaran
Material	Aluminum 5083
Deck commercial squares	~ 10 m <sup>2</sup>
Length	5,95 m
Width	2,35 m
Bow ramp width	0,9 m (hydraulic 0,75 m)
Weight	~ 740 kg
Carrying capacity	~ 940 kg
Draught	~ 0,35 m
Tank	147 L
Number of persons	max 8
Recommended power	1 x 100-180 hp 2 x 60-90 hp
CE- category	CE / C (coastal waters and lakes) (Work boat / oil recovery approval) (NMMA) (DIN 14961, EN 1914)
